

STILL
YOUNG

WHO IS STILL YOUNG?

Since emerging onto the scene, Still Young have established themselves as a formidable presence in electronic dance music. Their performances captivate audiences with a distinctive fusion of energetic rhythms, uplifting melodies, and authentic analog textures that resonate across dance floors globally.

Their journey gained momentum in 2015 when they caught the attention of dance music legend Steve Angello, a member in Swedish House Mafia and Size Records founder. Under his guidance, Still Young navigated the competitive landscape of international dance music, quickly becoming a sought-after name for discerning bookers worldwide.

The duo's artistic vision has led to collaborations with respected figures including Steve Angello himself, Tom Staar, Kryder, Michael Brun, Madwill, and Simon De Jano (who later found success as part of MEDUZA). These partnerships have contributed to their impressive catalog of contemporary electronic anthems.

With achievements including BBC Radio Dance Charts success and major collaborations, Still Young continues to leave an indelible mark on the electronic music landscape. Their performances, whether at major festivals or intimate venues, consistently deliver the memorable experiences that today's audiences crave.
